

Your Partner in PUBLIC SAFETY

Dedicated to providing quality certification programs for the safe installation, operation and maintenance of public safety systems; delivering value for members by providing the latest information and education in the industry.

IMSA Certification Challenge Exams

IMSA-Michigan Section requirements for attaining IMSA Certification by challenge exam are listed below.

- 1.) IMSA challenge exams may be scheduled when any of the following requirements are met:
 - a.) IMSA certification courses are not offered within the MI Section.
 - b.) IMSA certification is a condition of employment.
 - c.) IMSA certification is a condition for promotion or pay raise.
- 2.) Under paragraph b.) and c.) of the above mentioned requirements, a letter from the Human Resource Department, on agency/company letter head, will state such conditions and will be submitted to the Michigan Section Certification Director before challenge exams are scheduled.
- 3.) A completed Work Experience Verification (WEV) form is required from your employer for all IMSA certification. The applicant's supervisor shall sign the WEV form. This information must be verified before certification will be issued. NOTE: The WEV requirement does not preclude anyone, without the required experience, from taking an IMSA challenge exam. An individual will not be issued Certification until the work experience requirement has been attained. Once the work experience has been attained, a WEV form must be submitted to the Michigan Section Certification Director for verification. At which time, a Certificate will be mailed.
